 [www.hennenhealth.com](http://www.hennenhealth.com)

Here's a dynamic, world class speaker to ignite your audience. Dr. Bradley Hennen brings a uniquely global perspective to conferences, conventions and continuing education courses, addressing (in English or Spanish) fascinating topics that inspire and inform.

## CLINICAL PROBLEM SOLVING

Doctors and health care providers make hundreds of decisions every day. What is the process followed to make the best possible decisions? Diagnosis assumes that something is wrong with a patient and gives illness a name. Learn why clinical thinking should not focus solely on what is wrong with patients, but must also describe what is right with them.

## CHIROPRACTIC PRACTICE IN EUROPE

Chiropractic is the first health care profession in Europe to establish standards of care. These will ultimately affect every nation in Europe and guide the development of this quickly growing profession, that currently numbers fewer than 5,000 practitioners. Find out how chiropractic is evolving across the pond.

## ABOUT THE DOCTOR

DR. BRADLEY R. HENNEN earned his Doctorate of Chiropractic from the Palmer College of Chiropractic in 1988. Over the past two decades he has treated patients in Canada, Spain, Seattle and Colorado Springs. Fluent in Spanish.

While initially focused primarily on pediatrics and pregnancy, Dr. Hennen now treats severe neurological cases worldwide. He served as the Outpatient Clinic Director at the Madrid College of Chiropractic in San Lorenzo de El Escorial, Spain, where he also taught Clinical Studies and Technique. He served as a member of the Asociación Quiropráctica Española (AEQ - Chiropractic Association of Spain) and is actively engaged in the establishment of standards of care in the European Union and the USA.
